

# ABRF Satellite Workshops Education Awards Sacramento, CA March 20, 2010

**Core Scientists, Students and Postdocs  
Interested in Biotechnology can apply.**

This award covers the registration fee to one of the five workshops and up to \$550 to reimburse travel and hotel costs.

## **ABRF Satellite Workshops**

1. Introduction to Proteomics Platforms: Applications for Qualitative and Quantitative Studies
2. Targeted Proteomics
3. RNA Demystified for Life Science Core Laboratories
4. Next Generation DNA Sequencing: Platform-Independent Analysis You Can Use
5. Managing Performance and Productivity in the Laboratory Today

**To apply, please visit the ABRF Award page at**

<http://www.abrf2010.org/>

**Applicants must submit:**

1. A personal statement describing your career and research interests and how the chosen workshop relates to your studies or career goals.
2. Letter from a mentor/supervisor demonstrating need and how the workshop will benefit the applicants' professional development.

**The deadline for applications is Feb 8, 2010**

Those attending the ABRF meeting who have submitted an abstract will be given top priority. Students from groups underrepresented in the sciences, postdoctoral fellows and core scientists are particularly encouraged to apply.

\*\*This funding is restricted to persons in US laboratories only\*\*
