Biobootcamp: Building life science businesses

Integrating physical, chemical, mathematical sciences and engineering principles

Biobootcamp attendees will learn valuable information from experienced practitioners about how to design your early stage company to commercialize bioscience technologies while avoiding dangerous pitfalls that are typically encountered along the way.

Check out www.biobootcamp.com in March for more information and an application. This program is open only to inventors, professionals, and entrepreneurs in the bioscience industry. This conference is provided at no cost to approved attendees.
