Kathryn M. Morgan

Education: **Metropolitan State College** **Denver, CO**
B.S. Biology with minor in Chemistry
Degree granted May 1988
Courses: Genetics, Chemistry, Biology

University of Arizona **Tucson, AZ**
September 1983 to December 1984
Undergraduate studies in Nursing, Biology and Chemistry
Courses: Nursing, Chemistry, Physics, Microbiology

Experience: **2003–12/2008** **National Jewish Center** **Denver, CO**
Pediatric Clinical Researcher / Study Coordinator III

- ◆ Coordination of pharmaceutical clinical research studies phase I II, and III and coordination of NIH studies.
- ◆ Responsible for submitting pertinent documents to the IRB for approval.
- ◆ Responsible for auditing NIH and pharmaceutical CRF's for QA/QC.
- ◆ Responsible for recruiting, screening, consenting and enrolling subjects for clinical asthma, allergy and dermatology studies.
- ◆ Conducted study visits, maintained schedules of subject visits, and tracked participant progress. Study visits included the following responsibilities: pulmonary function testing, blood draws, skin testing, ECG's, arterial blood pressure measurements, administering psychological tests, study drug distribution/collection and laboratory specimen processing.
- ◆ Responsible for staff training.

**1995-1997 National Jewish Center Denver, CO
Clinical Researcher / Study Coordinator II**

- ◆ Coordination of clinical research studies as outlined by protocols.
- ◆ Reviewed and decoded medical charts and records from clinical and hospital facilities within the U.S.
- ◆ Arranged travel, lodging and other accommodations for study participants. Developed and maintained a strong rapport with study subjects in order to encourage continuous participation.
- ◆ Maintained contact with physicians and pharmaceutical companies throughout the study.

**1994-1995 Medtronic Electromedics Inc., Parker, CO
Laboratory Research Technician**

- ◆ Supervised employees and coordinated evening workload.
- ◆ Conducted research studies on auto-transfusion bowls, machinery and other medical devices.
- ◆ Analysis of bovine blood, human blood, and surgical equipment using the following instrumentation: Coulter Counter S+4, Coulter Counter Multisizer, and Pyrogen Thermomax Microplate Reader.
- ◆ Inspected the clean room for QA/QC.

**1992-1993 National Renewable Energy Lab Golden, CO
Analytical Research Chemist**

- ◆ Coordinated QA/QC and the analysis of biomass samples using liquid and gas chromatography.

**1989-1992 Accu-Labs Research, Inc, Golden, CO
Analytical Chemist**

- ◆ Responsible for the analysis of organic and inorganic analysis of environmental and drinking water samples, using the following instrumentation: inductively coupled argon plasma, ultraviolet-visible spectrometer, atomic absorption spectrometer, and gas chromatography.

Skills:

- ◆ Detail Oriented.
- ◆ Excellent analytical technique.
- ◆ QA/QC.
- ◆ Interpersonal Communication Skills.
- ◆ Team Player.
